

A faint, light gray silhouette of a group of approximately ten people is centered on the page. They are depicted in various celebratory poses, with some raising their hands and one person holding a balloon. The word "prattoria" is superimposed over the center of the group in a light gray, lowercase, serif font.

prattoria

AN EXQUISITE INTRODUCTION

An exquisite corpse; an excruciating exercise in mixing and matching facilitated by an ingeniously horizontally sliced book.

It is time to bid a fond farewell to an institution that nurtures some of the most creative and talented individuals. Pratt Institute has been a blessing to many, a trial to others, but no doubt a privilege to all. Our days of Color-aid, six-hour classes and all-night cram sessions are over, but we all leave with a myriad of memories that made our time at Pratt incredible and unique.

Whether you were a transfer, a commuter or lived in the dorms, we will all remember the first time we hit our thumbs with a hammer, sliced a finger with an X-acto or got caught in the rain with a final project. Memories of the giant tire couch, the leaky roof of the Main Building and the unbelievably long lines during registration will always remain vivid. We enjoyed our time in

the sweltering heat of the engine room, walking under the beloved blue scaffolding and working around the notorious Pratt cats. Just like the campus' landscaping and sculpture garden, Pratt Institute is an ever-changing spectacle all year round.

In the end, it is every teacher, every classmate, and every worker that makes Pratt Institute a genuinely diverse experience, both powerful and unforgettable. Prattonia 2006 interpreted this diversity by creating a book that represents the community of Pratt, a community where the pieces of each individual make up a talented and united whole. *Get ready to mix it up!*

A ROUND OF APPLAUSE PLEASE

Take a bow, a curtsy, and pat yourselves on the back.

You are the advisors, the supporters and the piggy-bank. You are our photographers, our late-night lifelines, our therapists, and the techie left-side brainers. You held our hands and then pushed us into the deep end. You delivered our food and other consumables, didn't care if we hadn't showered, and looked past the "we haven't slept for days" bags under our eyes. You are the friends that made this book possible.

THE NUTS & BOLTS OF IT

Or: who did what to whom, and what they did it with.

Prattonia 2006 was designed by Pablo Defendini, JB Hartford, Nicolette Meccia, Christos Xidias, and Angelina Yang, under the advisement of Parker Weintz.

This book was designed using Adobe CS2 software on Macintosh computers. The text was set in Helvetica LT Std and Clarendon LT Std, from the Adobe OpenType collection. The book was digitally printed in New York City by High Road Press, Inc on Mohawk 70lb text. The cover was painstakingly silkscreened by the Prattonia Yearbook Staff in Brooklyn, USA.
